Description

- Non-selective herbicide that rapidly kills wide variety of nuisance plants
- This liquid herbicide is applied by sprayer
- Use in turbid water reduces effectiveness and should be avoided
- There is very little risk of environmental damage since Reward's concentration rapidly decreases as it is absorbed into the aquatic vegetation
- Application rate is one to two gallons per acre
- Should be used with activator for best results

Herbicide: Reward 1 Gal

- Active ingredient is 37.3% diquat dibromide
- Always read and follow label directions
