Description

• Concentrated Formula
• 4x more concentrated than Aquashade® Aquatic Plant Growth Control
• Inhibits growth of underwater weeds
• Tints water a pleasing aqua-blue
• Once dispersed, water can be used for swimming, fishing, irrigating, and watering animals.

Directions for Use:
• Apply 13.5 oz. per acre-foot of pond water every month or as needed.
• To prevent staining, handle with care prior to dilution and dispersing in water.
• Use of gloves is recommended while applying product.

• For best results, apply Aquashade Plus as a pre-emergent (prior to plant germination) before the growing season.
• Aquashade Plus may even be applied directly onto ice cover, (where applicable).
• Use during the growing season will suppress the rate and extent of underwater growth or algae bloom but may not eliminate it.
• Chlorinated water will cause color to fade, requiring more frequent application.
