Pond Dye: Concentrated Black Pond Dye 16oz

Description

- Provides a natural tint to pond water.
- Pond dyes help filter out UV rays from the sun
- Concentrated formula – use one ounce per 1000 gallons of water!
- Does not stain or harm fish, plants or other wildlife once dispersed in water
- Gives pond water a “Caribbean Blue” appearance
- Safe for use around fish, plants, and pets

Directions for Use:

- Apply one 1 fl. oz. per 1000 gallons of pond water every month or as needed. To prevent staining, handle with care prior to dilution and dispersing in water.
- Use of gloves is recommended while applying product.
- Dye will not stain rocks, plants, pets, wildlife, or people when dispersed and diluted in pond water.
- Chlorinated water will cause color to fade, requiring more frequent application.

Initial Dose:

1 oz per 1000 gallons
