Description

GreenClean Granular Algaecide is ideal for controlling string algae and algae blooms in ponds, waterfalls, fountains, and streams. It works through oxidation and breaking down the algae cells on contact. When used in a pond the dead matter floats to the surface where it is removed by a skimmer or a net.

- Kills algae on contact with results visible in minutes
- For use in ponds and water features containing live fish and plants
- Effective, eco-friendly chemistry – no copper residue
- Controls string algae in ponds, streams, and waterfalls
- An EPA registered algaecide

Directions for Use:

- Use 1/2 pound (1 cup) per 1000 gallons of water for existing problems.
- Use 1/4 pound (1/2 cup) per 1000 gallons of water as a maintenance dosage.
- For large ponds apply as preventative at 16 to 50 lbs. per acre-foot or as treatment of existing problem at 50 to 180 lbs. per acre-foot.
- Best to apply early in the morning on a clear sunny day. Turn of circulation. Apply to affected areas, including waterfall and streams. Turn

Algaecide: GreenClean Granular 20 lb Pail

circulation back on after 10-20 minutes.

- Skimming/netting dead algae helps prevent further algae.
- Always read and follow label directions.
