Description

This special blend of sludge removing bacteria is designed to:

- Reduce sludge buildup
- Eliminate pond odors caused by stagnant water and decaying material
- Improve water clarity
- Reduce oxygen demand
- Reduces problem causing nitrate and phosphates
- Enhance water clarity and reduce murky water
- Have results in temperatures as low as 38°F with cold water bacteria strains
- Safe for fish, family, and pets

Directions for Use:

- For best results use when temperatures are above 55° F.
- Spot Treatment: Apply 1 scoop (8 oz.) per 1000-1500 square feet of beach, shoreline, or problem area every two weeks.
- Full Pond Treatment: Broadcast two scoops (1 lb) per 1/4 acre of surface area every two weeks.

Avoid using copper-based algaecides for 48 hours within application

Maintenance Dose:

- One ounce of pellets covers approximately 200-250 square feet of shoreline area - Apply every two weeks.
